

FIG. 1 is a perspective view of a surgical instrument 1, including a handle 2, a shaft 3, and a tip 4. The handle 2 includes a proximal end 5 and a distal end 6. The shaft 3 includes a proximal end 7 and a distal end 8. The tip 4 includes a proximal end 9 and a distal end 10. The handle 2, shaft 3, and tip 4 are connected to each other by a proximal joint 11, a middle joint 12, and a distal joint 13. The handle 2, shaft 3, and tip 4 are made of a material that is biocompatible with the human body.
